Can I easily walk and cycle around using good quality routes?

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

4. PUBLIC TRANSPORT

Access to an affordable, reliable and well-connected public transport service is important for communities in any place. Good public transport allows people to get around in a sustainable way which in turn is good for the environment. *Now consider the question:*

Does public transport meet my needs?

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

5. TRAFFIC AND PARKING

Places that are dominated by traffic and parked cars can have a negative impact on our daily lives. Appropriate arrangements for traffic and parking that allow people to move around safely can help people to get the most out of a place. *Now consider the question:*

Do traffic and parking arrangements allow people to move around safely and meet the community's needs?

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

6. FACILITIES AND AMENITIES

Facilities and amenities are the things that we need to live and enjoy life; this can include local shops, schools, nurseries, libraries, GPs and places to eat, drink and meet friends. Access to good quality facilities and amenities is important in supporting people to lead healthy, fulfilling lives. *Now consider the question:*

Do facilities and amenities meet my needs?

7. WORK AND LOCAL ECONOMY

Good quality work can offer important benefits through the income, activity, social networks and sense of identity and satisfaction that it can bring. A thriving local economy can provide work opportunities and help create lively and attractive places where people want to spend time. *Now consider the question:*

Is there an active local economy and the opportunity to access good quality work?

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

8. HOUSING AND COMMUNITY

The housing on offer can determine who lives in an area and how a place looks and feels. Good places have a well-integrated mix of quality homes that support a range of household sizes and people of different ages and incomes. *Now consider the question:*

Does housing support the needs of the community and contribute to a positive environment?

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

9. SOCIAL INTERACTION

Feeling isolated can be damaging to our health and wellbeing. Good places provide a variety of spaces to meet and spend time with others. *Now consider the question:*

Next, rate your place on a scale from 1 to 7 where 1 means there is a lot of room for improvement and 7 means there is very little room for improvement.

11. HEALTH

Health and social care integration (NHS and local council social care services) will mean a greater emphasis on enabling people to stay in their homes, or another homely setting where possible, sharing their lives with their family and friends, doing the things that give life meaning and value.

Now consider the question:

Do you feel that you have access to the type of activities locally that support you to look after and improve your own health and wellbeing and live in good health?
